*Transport your scooter or  
powerchair safely with a  
full compliment of cars,  
SUV's, CUV's and Mini Vans.  
Incredible!*

 **BRUNO®**  
for your independence

# It's a Lift on Wheels!

## A Most Remarkable Development!

Many people who depend on scooters and power wheelchairs for mobility have reluctantly traded in their small or mid-size cars for larger and higher vehicles to transport their personal mobility devices.

Now there's an alternative! Introducing the Chariot – an incredible new “lift on wheels” that empowers a small vehicle to handle a load of up to 350 lb with ease.

Positioned behind a vehicle equipped with a frame mounted Class I or II receiver hitch, the Chariot uses two independent wheels that swivel – following the vehicle precisely. With its own suspension, this remarkable lift virtually eliminates any additional weight or force on the vehicle!

It's a miracle!

### Look At What People Are Saying About the Chariot...

*“It's great! I don't feel the vehicle bounce like with other common lifts.”*

*“It's so easy to drive...the lift follows right along, even in reverse.”*

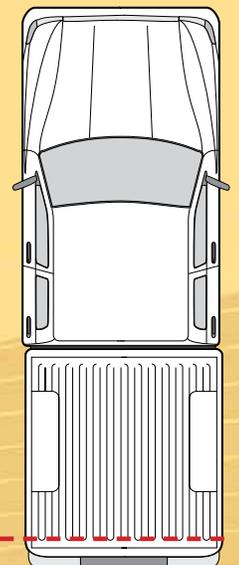

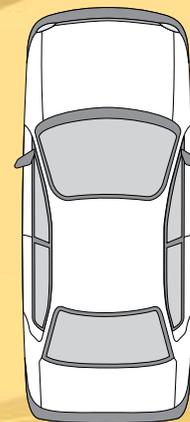

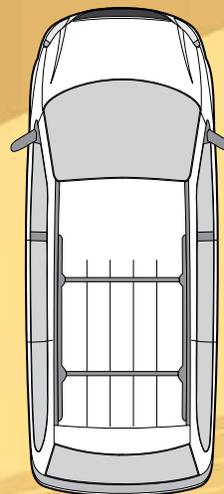

*“I think it's very nice. You can't even feel it back there.”*

*“It's not like a trailer..so simple to maneuver!”*

*“It's just like an extension of my car!”*

# The Chariot Works On Many Different Cars!

When used on a small car, it's shorter than a Full-Size Pickup Truck

Minivan

Chariot On Small Car

Full-Size Pickup Truck

# Keep All Your Vehicle Seats!

Chariot pictured with a 2013 Ford Edge featuring Bruno's Valet® Plus passenger seat.

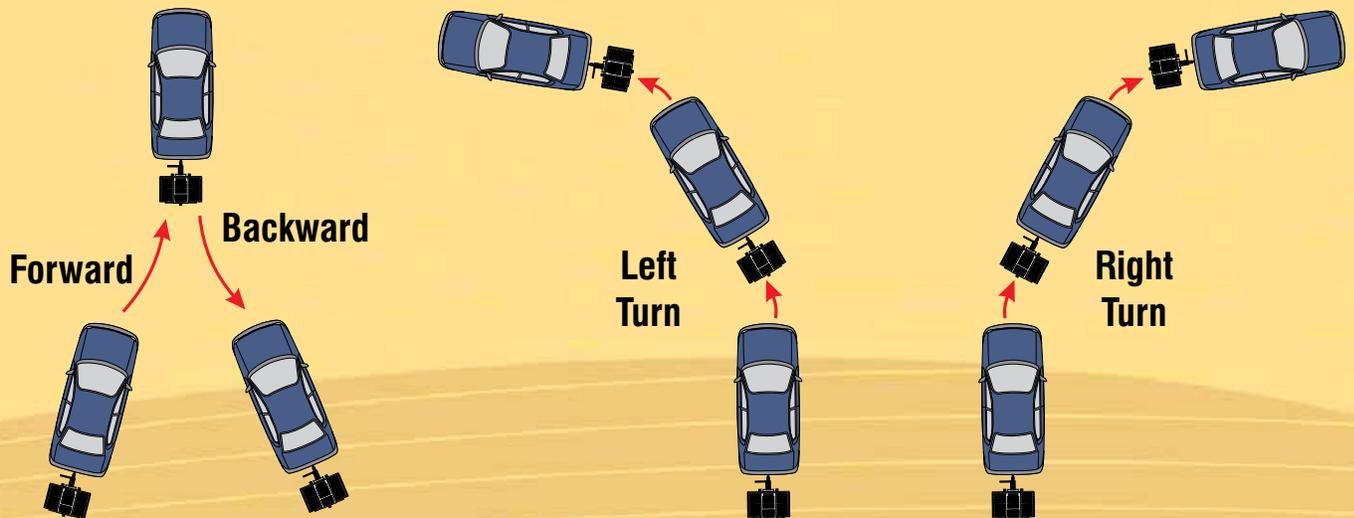

**Fits In Most Garages!**

## NOW AVAILABLE!

for select SUVs, CUVs, Minivans & Wagons.

Note: Must meet the specifications for installing on a hatchback type vehicle

## The Chariot Goes Where You Go... Just Drive Normally!

NO JACKKNIFING

*Swivel wheels on the Chariot means the lift follows you precisely – No "Jackknifing" – You might not even know it's there.*

**The Chariot Does Not Change Position!**

# Chariot Features...

**Self-Tensioning Retractable  
Securement Belts -  
One Hand Operation**

**Swivel Wheels With  
Independent Suspension**

**Easy Fold Platform**

**Drive On/Off Platform From
